25th October 2019

Dear Parents and Caregivers,

In 2020 all students enrolled at Castle Hill High School will be involved in the Bring Your Own Device (BYOD) program. This will include Year 7 students who will be required to bring their own computing device to school each day.

Students and parents are responsible for ensuring the device brought to school meets all the requirements of the Minimum Specifications Document. A device which does not meet the specifications will not be permitted access to school networks and services. Please see attached for Minimum Specifications Document.

Students will be solely responsible for the care and maintenance of their device. The device must be able to be brought to school every day and be used solely by the student throughout the school day.

Prior to bringing a device for the first time, students and their parents must read and sign a BYOD User Charter which sets out the responsibilities and expectations for use of the device at Castle Hill High School.

Vicki Brewer
