The Hon Adrian Piccoli MP  
Minister for Education  
Level 34 (East), Governor Macquarie Tower  
1 Farrer Place  
SYDNEY NSW 2000

Dear Minister

We are writing to you on behalf of Castle Hill High School and the Castle Hill RSL Club.

We have recently become aware of a proposal for a telecommunications tower to be built on the Castle Hill RSL.

Members of the Castle Hill High School community have also stated their objections align with the Department of Education's policy in telecommunications facilities, which states that:

*The Department of Education and Training supports objections, if appropriate, to proposals to establish mobile telecommunications facilities near school grounds and TAFE campuses and requests that telecommunications carriers locate these proposed facilities further away from Departmental sites.*

Both Castle Hill High School and the Castle Hill RSL Club are seeking your assistance in seeing the facility relocated to a site away from Castle Hill High School by ensuring the Commonwealth respects the Department's policy.

Your advice on this matter would be appreciated.

Yours sincerely

Handwritten signature of David Elliott.
